Activities

US Space & Rocket Center

The U.S. Space & Rocket Center has one of the most extensive collections of space artifacts and displays more than 1500 pieces. Displays include rockets, engines, spacecraft, simulators, and hands-on exhibits.

The tour of the Marshall Space Flight Center offers views of all four National Historic Landmarks at the center including a stop at the landmark Redstone Test Stand, where Alan Shepard's Redstone Rocket was tested prior to launch. Another scheduled stop is the Payload Operations and Integration Center, which serves as mission control for a number of experiments.

Huntsville Botanical Garden

The Huntsville Botanical Garden is a 112 acres botanical garden. The gardens include a seasonal butterfly house, and aquatic, annual, daylily, fern, herb, perennial, rose, and wildflower gardens, as well as a nature path and collection of Flowering Dogwood trees.

Strolling, shopping and more!

Monday and Tuesday afternoons and evenings we will be exploring two quaint villages - Gunntersville, AL, and Scottsboro, AL. We'll make a stop at the Unclaimed Baggage, and of course have phenomenal meals at Top O' the River and The Docks.

Accomodations

We will be staying at Maranatha Camp and Retreat Center's Lakeside Lodge. This hotel style retreat center has 16 rooms with private baths. Each day we'll eat breakfast at the Lodge, and in the evening, a time of fellowship and worship.

Trip is limited to 32 people! Register soon!
